

Coming soon:
A New Zealand Antarctic Youth Council

In late 2014 we will be inviting young environmental leaders to a weekend workshop with the aim of establishing the inaugural New Zealand Antarctic Youth Council. We are asking for expressions of interest from scientists, communicators and environmental advocates aged 18–30 who are committed to the protection of our shared Antarctic heritage. The Council will give a voice to New Zealand's youth in promoting a sustainable future for Antarctica and the Southern Ocean.

If this sounds like you or somebody you know, find more details on our website at www.antarcticyouthnz.org, or contact James at antarcticyouthnz@mcguinnessinstitute.org.

A New Zealand Antarctic Youth Council is an initiative of the McGuinness Institute's One Ocean Project.
